KOKOMO, Aug. 31.-Special.-James Gregory, a well-to-do farmer living west of this city, was assassinated last night while attending upon the sick bed of Mrs. Louise F. Loomis, a widow with whom he has made his home for fifteen years. He had arisen to give the sick woman medicine when three shots were fired from the open door of the room, all in the recent attempt to hold up the her. have proven fatal. Mrs. Loomis remained alone with the corpse until morning, crawling to the farm bell at intervals to sound the alarm, but arousing nobody until after daylight. This morning Mrs. Loomis's son, who has been adjudged insane three times within the past fen years insane hospital as cured, was arrested for the murder and the evidence points conclusively to his guilt.

CONVERSE WITH THE DEAD.

A Murdered Man Tells the Story of

His Life and Cause of His Death. ANDERSON, Aug. 28.-Special,-One of the greatest seances ever held in Indiana was witnessed in this city several nights ago by a circle of twenty of the best citizens. Forms materialized for a couple of hours and the circle was just going to be broken when a form came to the cabinet surtains that was recognized by all and sent a thrill through every person. It was Dote McCollough, the noted outlaw, who was sent up from Lima and Findlay. D., several years ago, and who was mur-Dory Welsh.

ber of vehicles. E. J. Huber, underloses two fine hearses. Dr. Wright loses \$1,500 on dwelling house adjoining the livery barn. Crump, who owned the stable, will lose \$6,000, with but little insurance. Campbell, Boyd & Ross, wholesale grocers adjoining, lose heavily by re-

moval of goods and by water. Walter Doup, one of the firemen, was overcome by heat and was in a critical condition for some time, but is improving. It was one of the most extensive fires in the history of the city.

ROBBED OF HER JEWELRY.

Left Penniless-The Shock Too Much for Her.

MUNCIE, Sept. 2.-Special.-Thieves entered the boarding-house of Mrs. Mary Wier, in the suburbs of Boyceton, last hight and stole two gold watches and other jewelry valued at \$200.

When the old lady discovered the robbery she fell prostrate and has since been unconscious. Her chances for recovery are very meager this evening. She is an old German lady with no known relatives in this country and the robbers leave her penniless. She lost her husband in Pittsburg and came to Muncle at the suggestion of glass-workers, who wished to continue to board with her. Some time since a boarder left a fine gold watch to secure a forty-dollar board

Last evening two strangers called, saying they wished to buy the watch, saw where it was kept with the other jewelry and then left.

Crop Bulletin.

Cool nights, and local rains in most localities on several days, have improved corn, pasturage and vegetation in general. Only very few correspondents report a continuance of the drought in their locality, Corn much improved, that which has been utterly ruin excepted, is maturing well and earing better than expected; in several counties the crop is reported to be better and larger than for years; even that on clay ground has improved in some localities, but in others much is being cut. A fair crop of clover is being hulled; the seed is of good quality. Millet is some localities is a good crop, in others less so; much is in the barn. Tobacco cutting continues; a fair crop. Buckwheat makes a good crop. Late cabbage and the im mense fields of tomatoes have been much improved by the rains. Pasturage looks less brown, but on some farms stock water is still scarce and has to be hauled, and the stock is fed wheat. Hall and strong wind in the northern portion of the state did some damage. Fall plowing and seeding progresses better.

SCIENCE, ORTHODOXY AND RELIGION Should Work Harmoniously for the

Betterment of Earth's Conditions. If our religious teachers would but beleve it, there is an ample field open to hem for instructing and benefiting mankind without making any attempts to restrict scientific investigation or the enunciating of scientific doctrines, says Popular Science Monthly. But there is room for a teaching which shall in a manner correlate all these, which shall reveal the sacredness of every duty and the profound significance of life. This is the teaching which especially deserves the name of religious, inasmuch as it awakens in the mind of the individal a consciousness of his relation to the universe as a whole and an accompany-

INDIANAPOLIS WILL SECURE THE K. OF P. ENCAMPMENT,

Which Will Bring 75,000 Knights to the City-Possibility of a Split in the Order Over the Saloon and German Questions.

BUREAU OF THE SENTINEL. WASHINGTON, D. C., Sept. 3.

The supreme lodge Knights of Pythias has selected the following committee to the next encampment: R. L. C. White of Tennessee, keeper of the records and seals; Representative Bunnell of Manitoba, and Pryor of Kentucky. A telegram from Governor Matthews of Indiana inviting the lodge to meet at Indianapolis in 1896, and from citizens of Minneapolis to the same effect, were received by this committee.

Indianapolis and Minneapolis are the only cities in the field for the encampment. The sentiment among the knights here last week was overwhelmingly in favor of Indianapolis, and it is not likely that the committee will ignore the wishes of the rank and file of the order in this matter. It is contended that Indianapolis is near the center of population and the most accessible point for all sections. The success of the G. A. R. encampment at Indianapolis last year has given the capital city a great advertisement for the round-up of the whole nation. Without much effort Indianapolis will secure the K. of P. encampment for '96. This will take about 75,000 knights to that city.

In an interview the ex-secretary stated that Carlos left New York about the middle of July for Parls, where he will remain a short time, and then will re side permanently in Madrid. Secretary Urrutia said that one of the immediate incentives of the late rebellion was that President Ezeta made the law prohibiting the introduc tion of silver into the republic. It was his Intention to place gold on the same basis, but a strong protest was made by the wealthy agriculturists, furthermore the Salvadoreans, who are mostly of the catholic religion, made a vigorous fight against a law granting absolute

Artificial Silk Being Manufactured

Across the Water. WASHINGTON, Sept. 3 .- Claude Meeker, consul at Bradford, England, has sent to the state department a report upon the attempts that are now being made to manufacture artificial silk. His report contains some very interesting points upon the progress made. He says that a company is now being promoted in Bradford for the manufacture of artificial silk. Patents have been taken our in the United States, and it is proposed to establish a company in this country for the purpose of selling

rights. The inventor of the process is Dr. Frederich Lehnor of Zurich, Switz-"If the hopes of the invention," says Consul Meeker, "are realized the princely position of the silk worm is usurped. In order to make the usurpation more complete a false work of glass, spinning a thread, which is wound in an ar-

THE PLAIN PROOF Of Awards to Dr. Price's Cream Baking Powder at the Fairs.

An envious New York competitor who tries to sell inferior goods by labeling them "absolutely pure," seeks to belittle the award of highest honors to Dr. Price's Cream Baking Powder at World's Columbian Exposition by denying that such honors were conferred. The award to Dr. Price's is proved by

the official records. Chief of awards J. S. Browning writes "The records of this department (agriculture) show that the executive committee on awards officially announced some time ago that an award had been granted the Price Baking Powder Company on its exhibit of baking powder." The Hon. John Boyd Thacher, chairman of the executive committee on awards, also writes under date of Feb. 14, 1894: "I herewith enclose you an official copy of your award, which in due time will be inscribed in the diploma and forwarded." Why did the New York competitor

not exhibit? Was it because his powder contained ammonia? The award to Dr. Price's at Chicago was for strength, purity and general ex-On similar grounds it received the highest award and Gold Medal at the

ARID LANDS OF THE WEST.

Irrigation Congress Will Ask That They Be Reclaimed.

DENVER, Col., Sept. 2.-The third Naional irrigation convention met at the Broadway theater today, There were about two hundred delegates in attendance, representing seventeen western states and territories. Representatives were also present from Canada, Russia. and several other foreign countries. Don J. Ramon de Yooralla presented credentials as the personal representative of President Diaz of Mexico. The United States government is represented by H. Newell, Arthur P. Davis and Morris Dean of the general land office and geological surveys. The first object of the convention will be the formulating of a bill, to be presented to the next conble and, perhaps, probable outcome of gress, regarding the reclamation of the the meeting now in progress here. Defaulter Cox Under Arrest for Robbing His Partners.

CHICAGO, Sept. 3 .- A. H. Wilcox of Chicago, who is charged with swindling his business associates out of vast sums of money, has been apprehended in Buffalo at the instance of his former partners, Charles N. Codding of New York and F. S. Pusey of Philadelphia, and taken to New York City. Wilcox was formerly located in Chicago and had an office in the Omaha building. He lives with his wife at 219 Ohio-st. According to the detectives Wilcox is

a long bank account and far more than the ordinary share of this world's goods. His apprehension is for alleged extensive defalcations from his partners. The sum in question is not definitely known, but it is supposed to be about \$190,000. It is believed that Wilcox will be able to make a settlement with Codding and Pusey, which will result in having the criminal action against him withdrawn. The republican senators voted solidly
